20 APR 1992

In re Application of Jo Ann M. Canich :
Serial No. 676,690 : WITHDRAWAL FROM ISSUE
Filed: 03/28/91 :
For: OLEFIN POLYMERIZATION CATALYSTS :

The purpose of this communication is to inform you that the above identified application is being withdrawn from issue pursuant to 37 C.F.R. § 1.313.

The application is being withdrawn to permit reopening of prosecution. The reasons therefor will be communicated to you by the examiner.

Patent and Trademark Office records reveal that the issue fee has not been paid. If the issue fee has been submitted, the applicant may request a refund, or may request that the fee be credited to a deposit account. However, applicant may wait until the application is either again found allowable or held abandoned. If the application is allowed, upon receipt of a new Notice of Allowance and Issue Fee Due, applicant may request that the previously submitted issue fee be applied toward payment of the issue fee in the amount identified on the new Notice of Allowance and Issue Fee Due. If the application is abandoned, applicant may request either a refund or a credit to a deposit account.

The application is being forwarded to the examiner for action.

Reply to
Attn. of: Joseph L. Schofer, Primary Examiner

Subject : Withdrawal from Issue: S.N. : 07/676,690

Filed: March 28, 1991

Sent to Issue: December 20, 1991

To: Mr. James O. Thomas, Jr., Director, Group 150

It is requested that the above-entitled application be withdrawn from issue based upon double patenting over newly discovered U.S. Patent No. 5,026,798. That patent will be involved in interference with another application, the interference memorandum is being forwarded to the Interference Branch.

The issue fee has not been paid.

Respectfully,

David Wu
